Board Policy #228
DATE ADOPTED: May 11, 2006

228. STUDENT WELLNESS

Keystone Charter School recognizes that student wellness and proper nutrition are related to students' physical well-being, growth, development, and readiness to learn. The Board is committed to providing a school environment that promotes student wellness, proper nutrition, nutrition education, and regular physical activity as part of the total learning experience. In a healthy school environment, students will learn about and participate in positive dietary and lifestyle practices that can improve student achievement.

To ensure the health and well-being of all students, the Board establishes that the district shall provide to students:

{ × } A comprehensive nutrition program consistent with federal and state requirements.

{ × } Access at reasonable cost to foods and beverages that meet established nutritional guidelines.

{ × } Physical education courses and opportunities for developmentally appropriate physical activity during the school day.

{ × } Curriculum and programs that are designed to educate students about proper nutrition and lifelong physical activity, in accordance with State Board of Education curriculum regulations and academic standards.

The CEO or designee shall be responsible to monitor programs and curriculum to ensure compliance with this policy, related policies and established guidelines.

Each building principal or designee shall report to the CEO regarding compliance in his/her school.

Staff members responsible for programs related to student wellness shall report to the CEO regarding the status of such programs.

The Keystone School Health Council (Wellness Committee) or School Health Council Coordinator shall annually report to the Board on the district's compliance with law and policies related to student wellness. The report may include:

Assessment of school environment regarding student wellness issues.

Evaluation of food services program.

Listing of activities and programs conducted to promote nutrition and physical activity.

Recommendations for policy and/or program revisions.

Suggestions for improvement in specific areas.

Feedback received from school staff, students, parents/guardians, community members and Keystone School Health Council.

An assurance that district guidelines for reimbursable meals are not less restrictive than regulations and guidelines issued for schools in accordance with federal law shall be provided annually by the:

Cafeteria Manager.

Business Manager.

CEO.

Keystone School Health Council

The Board shall appoint a Keystone School Health Council comprised of at least one (1) of each of the following: School Board member, district administrator, district food service representative, student, parent/guardian, member of the public.

teacher

school nurse

school counselor

educational/administrative support staff

dietician

health professional

representative of local or county agency

representative of community organization

other individuals chosen by the Board.

The Keystone School Health Council shall serve as an advisory committee regarding student health issues and shall be responsible for developing a Student Wellness Policy that complies with law to recommend to the Board for adoption.

{x} The Keystone School Health Council may examine related research and laws, assess student needs and the current school environment, review existing Board policies and administrative regulations, and raise awareness about student health issues. The Keystone School Health Council may make policy recommendations to the Board related to other health issues necessary to promote student wellness.

{x} The Keystone School Health Council may survey parents/guardians and/or students; conduct community forums or focus groups; collaborate with appropriate community agencies and organizations; and engage in similar activities, within the budget established for these purposes.

{x} The Keystone School Health Council will review the policy annually.

Nutrition Education

{x} The goal of nutrition education is to teach, encourage and support healthy eating by students. Promoting student health and nutrition enhances readiness for learning and increases student achievement.

{x} Nutrition education will be provided within the sequential, comprehensive health education program in accordance with State Board of Education curriculum regulations and the academic standards for Health, Safety and Physical Education, and Family and Consumer Sciences.

{x} Nutrition education shall provide all students with the knowledge and skills needed to lead healthy lives.

{x} Nutrition education lessons and activities shall be age-appropriate and economically appropriate.

{x} Nutrition curriculum shall be behavior focused.

{x} Nutrition education shall be integrated into other subjects to complement but not replace academic standards based on nutrition education.

{x} Lifelong lifestyle balance shall be reinforced by linking nutrition education and physical activity.

{x} The staff responsible for providing nutrition education shall be properly trained and prepared and shall participate in appropriate professional development. Criteria shall be developed to measure “properly” and “appropriate.”

{x} District staff shall cooperate with agencies and community organizations to provide opportunities for appropriate student projects related to nutrition.

{x} Consistent nutrition messages shall be disseminated throughout the school, classrooms, cafeterias,

homes, community and media.

{×} Nutrition education shall extend beyond the school environment by engaging and involving families and communities.

Physical Activity

{×} District schools shall strive to provide opportunities for developmentally appropriate physical activity during the school day for all students.

{×} The school shall determine how they will contribute to the effort to provide students opportunities to accumulate at least sixty (60) minutes of age-appropriate physical activity on all or most days of the week. That time will include physical activity outside the school environment, such as outdoor play at home, sports, etc.

{×} Age-appropriate physical activity opportunities, such as recess; before and after school; during lunch; clubs; intramurals; and interscholastic athletics, shall be provided to meet the needs and interests of all students, in addition to planned physical education.

{×} A physical and social environment that encourages safe and enjoyable activity for all students shall be maintained.

{×} Extended periods of student inactivity, two (2) hours or more, shall be discouraged.

{×} The school shall partner with parents/guardians and community members to institute programs that support physical activity.

Physical Education

{×} Quality physical education instruction that promotes lifelong physical activity and provides instruction in the skills and knowledge necessary for lifelong participation shall be provided.

{×} Physical education classes shall be the means through which all students learn, practice and are assessed on developmentally appropriate skills and knowledge necessary for lifelong, health-enhancing physical activity.

{×} A comprehensive physical education course of study that focuses on providing students the skills, knowledge and confidence to participate in lifelong, health-enhancing physical activity shall be implemented.

{×} A varied and comprehensive curriculum that leads to students becoming and remaining physically active for a lifetime shall be provided in the physical education program.

{×} A sequential physical education program consistent with State Board of Education curriculum

regulations and Health, Safety and Physical Education academic standards shall be developed and implemented.

{×} Students shall be moderately to vigorously active as much time as possible during a physical education class. Documented medical conditions and disabilities shall be accommodated during class.

{×} Safe and adequate equipment, facilities and resources shall be provided for physical education courses.

{×} Appropriate professional development shall be provided for physical education staff.

{×} Physical education classes shall have a teacher-student ratio comparable to those of other courses.

Other School Based Activities

{×} The school shall provide adequate space, as defined by the district, for eating and serving school meals.

{×} Students shall be provided a clean and safe meal environment.

{×} Students shall be provided adequate time to eat: ten (10) minutes sit down time for breakfast; twenty (20) minutes sit down time for lunch.

{×} Meal periods shall be scheduled at appropriate hours, as defined by the district.

{×} Drinking water shall be available at all meal periods and throughout the school day.

{×} Students shall have access to hand washing or sanitizing before meals and snacks.

{×} Nutrition content of school meals shall be available to students and parents/ guardians.

{×} To the extent possible, the district shall utilize available funding and outside programs to enhance student wellness.

{×} Food shall not be used in the schools as a punishment.

{×} The district shall provide appropriate training to all staff on the components of the Student Wellness Policy.

{×} Goals of the Student Wellness Policy shall be considered in planning all school based activities.

{×} Fundraising projects submitted for approval shall be supportive of healthy eating and student wellness.

{×} Administrators, teachers, food service personnel, students, parents/guardians, and community

members shall be encouraged to serve as positive role models through district programs, communications and outreach efforts.

{x} The district shall support the efforts of parents/guardians to provide a healthy diet and daily physical activity for children by communicating relevant information through various methods.

Nutrition Guidelines

All foods available in district schools during the school day shall be offered to students with consideration for promoting student health and reducing childhood obesity.

Foods provided through the National School Lunch or School Breakfast Programs shall comply with federal nutrition standards under the School Meals Initiative.

Competitive foods are defined as foods offered at school other than through the National School Lunch or School Breakfast Programs and include a la carte foods, snacks and beverages; vending food, snacks and beverages; school store food, snacks and beverages; fundraisers; classroom parties; holiday celebrations; and food from home.

{x} All competitive foods available to students in district schools shall comply with the Nutritional Standards for Competitive Foods in Pennsylvania Schools. The nutritional standards shall be implemented as a

one (1) year plan.

two (2) year plan.

three (3) year plan.

{x} All competitive foods available to students in district schools shall comply with the established nutrition guidelines, as listed in the Student Wellness Plan.
